Projects & Experience

Portfolio Website | *Source Code*　　　　　　　　　　　　　　**HTML5 | CSS3 | JavaScript**
- Built and launched a fully responsive and accessible portfolio website with HTML5, CSS3, and vanilla JavaScript, including a dark/light theme, smooth animations, and a personal contact form
- Deployed on Netlify, the site features integrated form handling and a CI/CD pipeline for automated updates at antthonyma-portfolio.netlify.app.

Delay Llama - Hackathon Project | *Source Code*　　　　**Team Collaboration | UI/UX | Python**
- Collaborated on the strategic planning and design phases of the project, providing key feedback on the user interface and user experience (UI/UX) to ensure an intuitive and visually appealing application.
- Supported the development team by reviewing code and identifying minor errors, contributing to the overall quality and stability of the FastAPI backend and Streamlit frontend.
- Assisted in creating the project's presentation video, effectively communicating the application's features and value to a non-technical audience.
